

## COMPANY INTELLIGENCE REPORT 2018/08

### US PRESIDENTIAL ELECTION: DEMOCRATIC CANDIDATE JOSEPH BIDEN'S ACTIVITIES IN UKRAINE AND COMPROMISING INFORMATION ON HUNTER BIDEN.

Russian intelligence came into possession of recordings and videos of both Joseph Biden and Hunter Biden in compromising situations and committed crimes. Russian intelligence co-opted Chinese nationals in the United States to target Hunter Biden to leverage Joseph Biden. Russia and China have formed a pact to share resources in pursuit of controlling the next president, Joseph Biden. In doing so, both countries hope to form United States foreign policy. Both countries' highest priorities are to eliminate all sanctions and tariffs on their countries.

Russian intelligence targeted Hunter Biden because of his destructive behavior resulting from his addiction to illicit drugs.

### BACKGROUND

1. Israeli intelligence had operations in Ukraine and had penetrated key Ukrainian industrial leadership positions. Israeli intelligence was able to do this because of two factors. Israeli society is a multi-national state with people that have immigrated from nearly all points from the globe. Ukraine is rife with corruption. Thus, where Israeli agents couldn't infiltrate, Israeli intelligence was able to bribe officials to cooperate through proxies.
2. Israeli intelligence takes an interest in the U.S. presidential election process/outcome. To that end and since all operations have been terminated in Ukraine, Israeli intelligence sought permission to share what had been observed in Ukraine and in the United States.

### INTELLIGENCE

3. Associates of Ukrainian oligarch Victor Pinchuk confided that Joseph Biden had pressured Pinchik for millions of dollars for continued access to U.S. steel markets that Secretary Clinton had given Pinchuk. Clinton secured 10 million dollars to the Clinton Foundation from Pinchuk and Pinchuk's private plane for a determined time in exchange for access to U.S. steel markets. These associates of Pinchuk said Joseph Biden insisted on 23 million dollars to be deposited in an offshore account for continuing access to U.S. steel markets.

4. The largest revenue-generating export for the Democratic People's Republic of Korea is the printing of counterfeit currency. Known only as building seven in the city of Pyongyang, from this building hundreds of millions of dollars of counterfeit U.S. currency flows annually to China and Russia. Chairman Kim uses building seven's revenue stream like his father did to stay in power by supporting his general's extravagant lifestyles as well as feeding his voracious appetite for both culinary and sexual.
5. Russia uses DPRK's currency primarily in intelligence operations. China uses the DPRK's currency as a multiplier in China's national bank, the People's Bank of China. Hunter Biden through his and his partners' hedge fund provided China with an additional vehicle to invest in the United States' economy with counterfeit currency. A small portion of China's returns on its investments has been used to fund the startups of fentanyl manufacturing in China and creating a distribution network. It is unclear as to whether Hunter Biden and his partners know the full details of China's counterfeit currency scheme.
6. In the United States and elsewhere, Israeli intelligence observed prostitutes entering Hunter Biden's hotel rooms. On one occasion after the prostitutes' departure, Israeli intelligence observed an escort of two juvenile females to Hunter Biden's hotel room. Some time afterward, a Russian source close to Igor Sechin confided the nature of the juvenile female operation.
7. Hunter Biden was so high on illicit drugs that he was unable to recognize that he was engaging in sexual acts with minors. Russian intelligence documented this with a video. A Russian intelligence officer posing as a Latvian businessman approached Hunter Biden and showed him some stills from the video of him with underaged females. The FSB agent invited Hunter to view the video on national television in the United States if he didn't lobby his father for ventures in contracts to the United States' government, and for U.S. aid for various countries. Both China and Russia receive funneled U.S. aid from various countries' leaderships.
8. The FSB was able to leverage Joseph Biden with kompromat information it had acquired from Ukrainian sources and the videos they had made from Hunter Biden's foreign hotel activities. ██████████ said, "The senior Biden told his agents he would move heaven and earth to protect his only remaining son." Russia exchanged a portion of this leverage on Joseph Biden for future considerations with China. China used the kompromate on Joseph Biden to manipulate President Obama.
